THE CREATIVE MYSTERY

Why expensive video ads drive clicks but deliver abysmal conversion rates vs. text ads

KEY FINDING: Video ads generate 13M+ clicks (highest CTR at 5.5%) but CVR crashes to 0.28% — 3x WORSE than text ads. Video buys attention, not purchases.

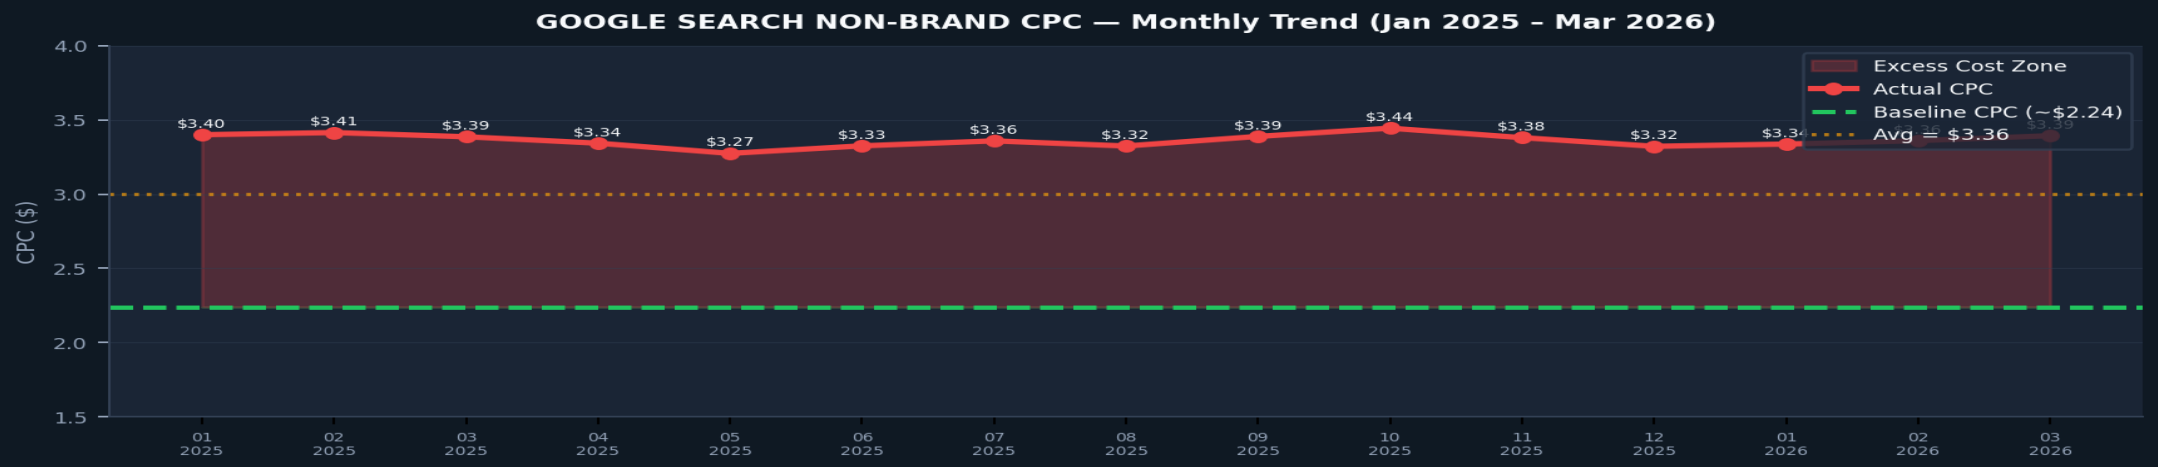
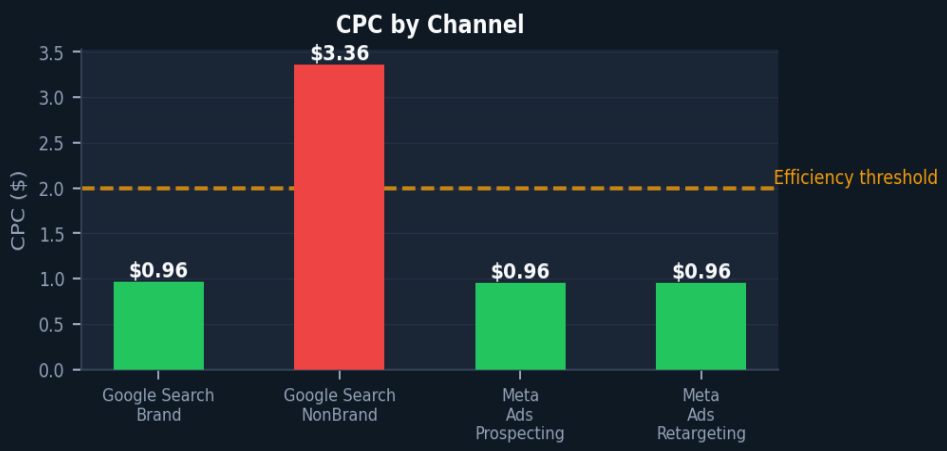
THE CPC COST CRISIS

Google Search NonBrand CPC +50% spike — quantifying the competitor bidding war impact

IMPACT SUMMARY: Google NonBrand CPC avg $3.36 vs baseline ~$2.24 (+50%) | Est. $2.28M excess spend | 33% fewer clicks for same budget | ~17,600 lost conversions

+50%	+$2.28M	-33%	~$2.1M
CPC SPIKE	EXCESS SPEND	CLICKS LOST	REVENUE LOST
vs $2.24 baseline	over 15 months	fewer clicks same budget	est. lost conversions





RECOMMENDED ACTIONS

1. Set max CPC bid cap at $2.50 on Google NonBrand immediately
2. Switch to Target CPA bidding — let Smart Bidding auto-optimise
3. Review Auction Insights weekly to monitor competitor activity
4. Reallocate 15% of NonBrand budget to Brand Search (CPC $0.96)
5. Implement automated alerts when CPC exceeds $3.00 threshold

ROAS PROFITABILITY FLOOR TRACKER

3.0x absolute minimum — any campaign below this floor is destroying value

ROAS FLOOR: ROAS = Revenue ÷ Ad Spend | 3.0x = $3 returned per $1 spent | Below 3.0x = campaign loses money after cost of goods + operating margin
